

2019-2021

Annual Report

bounceanimalrescue.org

From the Executive Director & Board Chair

2019 - 2021

The world has certainly changed a lot over the past few years.

We went from blissfully going about our days, to wearing masks and hoarding toilet paper, back to giving hugs and traveling. (Can you believe we used to eat birthday cake after someone had blown on it?!)

Regardless of the year, Bounce Animal Rescue's one constant is support - support from a community of partners, volunteers, foster homes, adopters, and donors. Through this support, our 6 year old organization is privileged to continue our work of rescuing and transitioning displaced animals. There are several successes we would like to celebrate:

2,291 animals were successfully placed throughout 2019-2021.

We have broadened and expanded relationships with many organizations including the Pet Animal Care Facilities Act (PACFA), Animal Welfare Association of Colorado (AWAC), and Northern Colorado Regional Animal Welfare Coalition (NoCoRAWC).

As a foster-based organization, we pride ourselves on providing a unique alternative to brick-and-mortar facilities and shelters. Throughout 2019-2021, our foster homes have provided 2,421,552 hours of care.

Over the past three years, we have committed \$296,802.76 on animals that have required special medical procedures, such as dentals, orthopedic surgeries, and cardiology consultations.

We are grateful to all that are by our side. Your support enables and ensures our ability to provide top care to the animals within our program. As always, we know we are not able to do this work without you.

Sincerely,

Anneliese Clark
Executive Director

Barry Eastman
Board Chair

Spay/Neuter Surgeries

Spay and neuter surgeries are essential medical procedures which reduces stray populations and promotes a longer, healthier life.

Average Cost Per Animal

From 2019-2021, the average cost per animal increased by \$161 (including expenses for food, veterinary care, travel, training, and supplies.)

Special Medical Case Expenses

Second chances can be pricey, but they're absolutely worth it. Bounce Animal Rescue continues to prioritize special medical cases that most shelters will not.

Featured Medical Case

Aston Martin

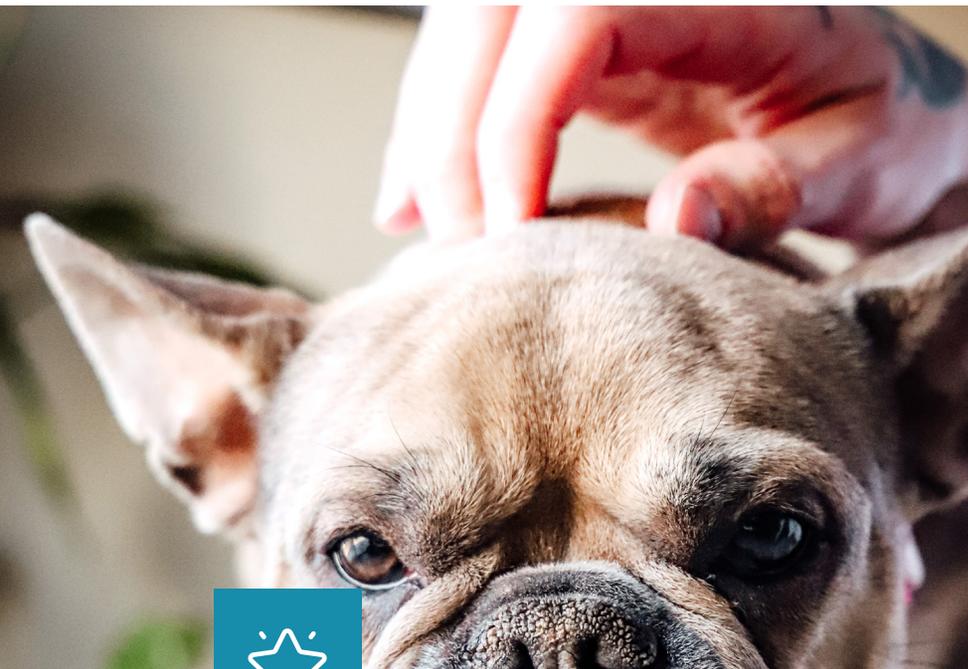

True to his namesake, Aston Martin cost a fortune.

Aston was diagnosed with severe valvar pulmonic stenosis, which is a heart abnormality present from birth. Through the unbelievable generosity and support of our community, Bounce was able to successfully raise the funds for Aston Martin's surgery (in only four days!), and he successfully received his treatment in September 2021.

After seven months of foster care, numerous veterinary appointments, and a major heart procedure, Aston Martin is happily living his best adopted life.

Our Supporters

Thank you to all of our incredible supporters for your unwavering support. Your generosity and compassion for animal rescue makes a considerable difference for animals in need and the greater community.
